Expendable Repairs

Absolute Aviation offers engineered repair solutions for expendable aircraft components and subcomponents. Repaired expendables (coined '**Extendables**') are returned to service offering as much as a 75% savings over replacing with new.

With matched reliability, a 75% **Extendable** cost savings gives airlines the ability to distribute a much lower repair cost against a much longer life-cycle — creating a compounded savings with immediate return on investment.

Applying our exclusive Product Improvement Process, Absolute Aviation uses DER Approved Engineered Repair Procedures to repair high-cost and high-removal expendable components.

Absolute Aviation's **Extendable** Repair Solutions Provide:

- Extended Component Life-Cycle
- Improved Reliability
- Reduced Capital Expenditure Costs
- No Cost Research & Development

Absolute Aviation has earned a respected reputation for the ability to effectively analyze and identify expendable aircraft component design flaws and engineer effective cost saving repair solutions.
